White Clover as a Pasture Plant.
White clover is a useful plant, relished
as it is by cattle and hunted by bees. It
is a frequent constituent of the best
pastures in Great Britain and Ireland.
It is also one of the leading species in
the pastures of North Germany. It is a
most excellent plant in low land pasture.
While it is true that it does not produce
so much herbage as red clover, it is, on
the other hand, richer in nutritive in-
gredients. It grows spontaneously in all
good pastures, and its presence is an in-
dication of the good quality of the soil.
Where the soil is suitable good clover
spreads so rapidly that comparatively
little seed is required.
In hard, thin soils the plant is gener-
ally small, but in a soil adapted to it,
white clover soon spreads and covers a
good deal of space. Its dwarf character
and the difficulty with which it is cured,
causes white clover to be esteemed as a
pasture grass rather than for hay. As a
pasture plant it endures more grazing
than the other clover.
White clover is often sown with some
of the finer grasses for lawns. It is a
well known and highly prized bee plant,
although the season is often a short one,
especially if hot, dry weather comes on
early. Almost the sole objection urged
to white clover is its effect on horses
during the maturing of the seed. It
makes them slobber. The flower is ex-
cellent during most of the season and
cattle are very fond of it. White clover
furnishes a large amount of highly nutri-
tive material. It has more protein and
more fat than red clover. This, together
with its property of thriving under close
and continuous grazing, renders it, as
has already been stated, an excellent
pasture plant.

Horse Talk.
First teach the colt to be a prompt
walker.
The colt should be taught to draw
loads by degrees.
Never overload the colt. Balky horses
are made in just this way.
Where there is lime rock there is a
natural soil for breeding horses.
The mare is all the better worked every
day, if fed bran and oats and not driven
fast or made to pull severely.

Angle Worms and Plants.
Peter Henderson says that angle worms
are injurious to plants and gives the fol-
lowing remedy: Mix five pounds of lump
lime with twenty gallons of water, stir
it until thoroughly mixed, then let it
settle, using only the clear water in
which sufficient of the caustic quality of
the lime will remain to kill the angle
worms. Use enough of it to reach the
bottom of the pot or the bench. Two
applications will usually be sufficient.
Thirty dairy conferences are to be held
under the auspices of the New York
State Dairy association in various sec-
tions of the state during the summer
months. It is also announced that this
association will hold daily conferences
at the next annual fair of the State Ag-
ricultural society, which will occur at
Albany Sept. 12-19.

ROSALIE'S FUNERAL.

In the letter read at the council board on Tuesday evening from the Indian Department, in reference to the cost of burying the young squaw "Rosalee," who came to her death by foul means last March, the Indian Department were asked for the cost incurred, which was somewhat about \$50, and only refunded \$29 of the amount. The department says that a plain box would have been sufficient, &c., &c. At the time of the death of the squaw the people of Calgary generally felt that if there was any callousness or indifference shown by the white people, that it might easily be construed by the Indians as meaning that they did not care about it because she was a squaw, and that they were more in sympathy with the criminal than the friends of the victim. Accordingly after deliberate reflection, it was decided to give her as respectable a burial as if she had been a white woman.

The effect was manifest at the time. The Indians congregated in large numbers round the coffin, her brother made a speech in which he pointed out to the Indians assembled that the white people had treated the remains of their dead sister as well as if she had been a white woman and that it showed that the white people had no sympathy with the crime and thus was removed all danger of revenge on some isolated white woman some time in the future. The Department did not think it necessary to go beyond the expense of a pauper's funeral. Parsimony and red tape sometimes prove disastrous and it does not take many unwise acts to pile up a feeling of dissatisfaction in the minds of an Indian population. The Council of Calgary stepped in at the right time and did a wise act. The people of Calgary are willing to sustain the Council in their act of wisdom by paying the cost which the Indian Department have refused to recoup.

Cause of Bad Butter.

A correspondent of the National Stockman and Farmer says:—

Forty thousand tons of butter more or less, are made from cream that has not a long way beyond "age" before churning. This is a common habit, that of having by half too long a time between milking and churning. The cream gets very sour and in hot weather the churning should be done about the time some butter makers set the cream away to sour. That the acid will not eat up the fats is true, nor all of the cheese left in the cream either, and so churning can get all the sour cheese out of the butter. Washing will get out some of it, but not all, and as salt will not stop this cheese ferment the butter gets rank. This would have been avoided if the cream had been churned when it should have been, just pleasantly acid, and the butter washed from buttermilk, then salted in this fine, sweet condition and packed into crocks then and there. The salting of butter is beginning to attract great attention from the best butter makers, and packing directly from the churn, omitting the usual working, is now being demonstrated to be the best way. At a recent New York butter conference one operator took up the butter, salted on the worker, set it away and reworked the next day. The other salted in the churn, worked it into lumps in brine, and packed for market. The result was that two weeks afterward, when examined the latter was solid and free from streaks, while the re-worked butter showed streaks and other inequalities which forced the maker to say that the direct packing process was the better. Butter, after it once cools, cannot again be made so thoroughly plastic as when completed at its first finish.

Regular Council Meeting.

[From Wednesday's Daily.]

The regular semi-monthly meeting of the Town Council was held in the old town hall at 8 o'clock last night. Present, his worship, Mayor Murdoch, Councillors King, Murdoch, Orr, Bannerman, and Fitzgerald and E. P. Davis, clerk. Councillor Grant being absent in the east. The minutes of the last regular meeting and of special meetings held on the 21st and 23rd of August were read and adopted.

A letter was read from the agent at Brandon of the Dominion Illustrated, published at Montreal, making a proposition to the Council to issue a Calgary special number with from 5 to 7 pages of local illustrations and reading matter if good subjects could be obtained, on the condition that the Town Council take 1,500 copies of the number at 10 cents each. The letter states that the present regular circulation of the Illustrated is about 6,500, to which, if 1,500 for Calgary are added, would make the total circulation of the Calgary special 8,000. It was stated that the C. P. R. had bought 500 copies of the Brandon issue for distribution in England and would likely do as much for Calgary district. Mr. Smith, the agent at Calgary furnished the Council with a copy of the Brandon number. The matter was referred to the committee on markets, health and exhibitions.

A letter was read from W. H. Cushing, praying for exemption from taxation for his saw and door factory on Scarth street, south of the C. P. R. This was granted by a unanimous vote of the council.

A letter was read from A. M. Burgess, deputy of the minister of the Interior, in reference to the application of the Council for a small part of the park reserve on the west end of Section 16, along the Bow river for a water works pumping station. The deputy minister said that the matter had been referred to the law officers of the crown who had decided that it could not be used for any purpose except that for which it was granted if objection was taken to it by anyone effected by the change of use.

Tenders were opened by the Clerk from the Eau Claire Lumber Co. and Major Walker for lumber for sidewalks. It was proposed to refer the tenders to public works but chairman Orr said as it was important to have the matter decided at once so we could go on with the sidewalk leading to the Agricultural Grounds, he wished the Council would examine the tenders and decide which they would accept. This was done and the tender of the Eau Claire Co. accepted.

A letter was received from the Indian Department covering a cheque for \$29, all that the Department would contribute towards the expenses of the casket and funeral for the squaw "Rosalee." This \$29 is placed to the credit of the town as the Council had already paid the entire cost connected with the burial.

The committee on police and relief brought in a report recommending that certain repairs be made on the police station such as putting on double windows all around, painting the building etc., and that they be authorized to ask for tenders for the work. The report was adopted.

The finance committee recommended the payment of a number of accounts. The report of the finance committee was very satisfactory to the Council. The amount of taxes agreed upon between the Townsite Trustees and the Council for last year has been paid and a very large amount of other back taxes have been paid of late so that the finances are in a first class condition. The committee recommended that the rate of assessment for school and municipal purposes shall be 15 mills on the dollar. The report was adopted.

Coun. Bannerman gave notice of a by-law giving power to make improvements by frontage tax on petition of one half the ratepayers on any particular street, representing two thirds of the assessment on said street, and if necessary to ask the legislative assembly to grant the power to do so.

Next came up the electric light question by-law No. 107 providing for granting P. A. Prince the privilege of erecting poles, &c., was introduced by unanimous vote. It was also read a first and second time without objection.

A resolution was then moved that the by-law be read a third time. The mayor stated that in order to pass it legally at the same meeting at which it was introduced, the vote of those present must be unanimous. It was then moved and carried that clause 40 be suspended.

At this point Coun. King asked leave to speak. He said it was not his intention to obstruct the passage of the by-law, but when he voted as he had at the last meeting he did not think it was right for the papers to charge him and the others who had voted with him, with improper motives, as his friend in the corner, Mr. Braden, had done in his paper, as they had a right to do what

they considered their duty.

Coun. Murdoch thought the council should go into committee of the whole and discuss the by-law and agreement clause by clause and moved seconded by Coun. Fitzgerald, that the council go into committee of the whole, which was carried.

Coun. King took the chair and proceeded to read the by-law clause by clause. Coun. Murdoch moved that the perpetuity clause be struck out and some term from 5 to 99 years be inserted instead.

Mr. Prince was asked if he would consent to that point. Mr. Prince said he did like to make any changes. The motion was lost. Coun. Murdoch then moved that the clause regarding poles be amended so that the poles be put in the lanes wherever there are lanes. This was lost and all the other clauses were passed without objection.

Mr. Braithwaite asked to have the city solicitor's opinion taken as to the power of the council to grant Mr. Prince the right to put up and keep poles in perpetuity. He said that when his company asked for the right for ten years, the solicitor gave it as his opinion that the council could not grant it.

The mayor replied that there was this difference, that Mr. Braithwaite had asked for an exclusive right, whereas Mr. Prince only asked for the privilege.

The committee then rose and reported and the mayor resumed the chair. It was then moved that the report be adopted. Coun. Murdoch asked the council to excuse him and he withdrew. The motion was then put and carried, all present voting for it.

It was moved by Orr and Fitzgerald that the clerk write the Department of the Interior to grant the council permission to apply money that may be obtained from the sale of any part of the old cemetery to the purchase of whatever land the council may select for a new cemetery. Carried.

Moved by King and Murdoch that the report of Coun. Orr, chairman of public works, re sidewalks and other improvements, which was brought in on the 6th of August, be adopted and the committee authorized to go on with the work. Carried.

The mayor presented the request of the school trustees to be allowed to hold their meetings in the town hall. Granted. The council then adjourned.

Calgary Grain Exhibit.

To the Editor of the HERALD and ALBERTA LIVE STOCK JOURNAL.

SIR,—I have looked over your Calgary exhibits this year. I find them as usual, bright, clear and very tastefully arranged. The grain is very choice in quality and will show well anywhere. Messrs. Fitzgerald and Bannerman Calgary, J. Bryce Sheep creek, Leo Slatery, W. Behn and Jas. Votier Fish creek are perhaps the best, but every one seems to have done his utmost. Where is Leo Gaetz? He took a first place last year. I hope to help to fix them up at London and Toronto fairs.

RICHARD WAGNER,

Editor Northwest Farmer.

Winnipeg, September 3rd, 1890.

Information Wanted.

To the Editor of the HERALD.

DEAR SIR,—There may be others who, like myself, are carrying a light insurance depending on the protection of our fire engine and brigade, and would like to know by what right or authority the council or any one else have sending the fire engine out to the race track, thus leaving the town without its protection. In case of a fire who pays for it, the town or the Mayor and Council?

Another thing a fire engine is not constructed for such continuous work as it is required to do at the race track, running for 8 or 10 hours at high pressure, with sand and gravel cutting boxings and bearings, thus causing the engine to be taken down on return to town useless for the next 10 hours. The first thing that will be heard is a bill for repairs or a new engine "present engine played out," and of course the ratepayers will have to foot the bill for the benefit of the agricultural society or race association.

It is only a short time since that the underwriters were making a howl for better fire protection. They got it and about the next notice will be "rates raised" as they don't know where the engine is. It may be in town, but probably out

in the country.

Yours &c.,
Citizen.

The Calgary Exhibit.

A carload of agricultural products collected in the Calgary district by Agent Fitzgerald was sent east yesterday and will be shown at the Ontario fall fair. The collection embraced all varieties of grain, and flax, as well as roots and vegetables. The wheat samples are particularly good, being bright, clean and plump. The other articles also indicate that the crops around Calgary are equal to those in any other part of the country. Eight boxes of cheese were sent along with the collection to be entered in competition at the Toronto Industrial Exhibition. The cheese was made at the Calgary factory. Samples of cut stone from the sand stone quarries near Calgary were also among the exhibits.—Winnipeg Free Press

In honor of Miss Lottie Collins who is leaving for the Coast, Miss Parrish entertained her Sunday School class at her home. The names of the pupils present were: Edna Cullon, Cornie Geddings, Mable Bishop, Milly Jarrett, Lou Geddings, Eva and Nellie Lee, Laura Greer, Edith Jarrett, Sam Lee, Mable Constantine, May Tweedle, Lottie Collins, Annie O'Neil. The following was the programme: Piano Solo, Miss Parrish; Recitation, Mable Constantine; Recitation, Lou Geddings; Duett, Edith and Milly Jarrett; Recitation, Lottie Collins; Song, Mary Tweedle; Recitation, Eva Lee; Duett, Annie O'Neil and Laura Collins; Song, Eva Lee; Song, Lou Geddings; Recitation, Milly Millward; Recitation, Cornie Geddings; Recitation, Edna Cullon; Chorus, by the class, "Sing It."

Mr. Lister Kay's Farms.

Harvest goes on apace on all the company's farms. The crops with one or two exceptions are fair, keeping in view a season of unusual, if not unprecedented drought. The crops on the Dunmore are all safely in stack Tuesday of last week and a long array of stacks are to be seen from the railway cars. It may be noticed as no small evidence of the fertility of the soil and climate of the Northwest, if not of the rare variety of pedigree pigs imported last fall by the above company, to state that the offspring of this rare stream of the porcine race, are not unfrequently possessed of five distinct legs each. No wonder the company talks of opening a business, five excellent hams from every pig is doubtless an encouraging fact. A few breeders thus equipped are, we hear, for sale. Apply to the manager Dunmore farm.

The Wedding.
(From Thursday's Daily.)
Last night at 8 o'clock, Knox Church, Calgary, was crowded to the doors and many more people were outside vainly trying to get in to witness the interesting ceremony about to take place. The contracting parties were Mr. Charles H. Parlow of the Hudson Bay Co. service, Calgary, and Miss Minnie B. Wheeler, late teacher in the Calgary protestant central school. At the appointed hour, Mr. Parlow, supported by Mr. S. Farber, manager of the Imperial Bank, and Miss Wheeler supported by Miss O'Connor, presented themselves for initiation. The Rev. J. C. Herdman, B. D., pastor of the church, was the officiating clergyman. Mr. Geo. Hamilton, uncle of the bride, gave her away. The clergymen of Calgary have got so used to marrying people that it is not necessary to say that Mr. Herdman tied the nuptial knot well and fast. After the ceremony was over, the happy couple, accompanied by a large number of invited friends, drove out to the residence of Mr. George Hamilton, about two miles from town, where twenty couples sat down to a rich wedding supper. The wedding presents given to the newly married couple at Mr. Hamilton's, competent judges say, excel in beauty and usefulness any wedding presents they have seen in Calgary. After supper a very sociable evening was spent. Shortly after midnight the gay party retraced their way to Calgary and conducted Mr. and Mrs. Parlow to where they will reside in the comfortable house in the north part of the town, built for the Hon. R. Hardisty when he lived here, which was nicely furnished and ready for its new occupants. Mr. and Mrs. Parlow have the best wishes of a very large circle of friends in Calgary.

District Meeting.
The financial meeting of the Calgary District Methodist Church, was held in the Methodist Church, on Thursday, 4th, Rev. A. R. Hames, chairman, presiding. At 9 a.m. the 418th hymn was announced. Rev. John J. Leach, Ph. B., read a scripture lesson and the Rev. J. W. Dickinson led in prayer.
The requirements of the several missions were carefully considered and the following grants recommended, viz:
Gleichen, \$455; High River, \$500; Red Deer, \$423; Macleod, \$600; Medicine Hat \$700; Pine Creek, \$350; Banff, \$375; Edmonton, \$850; Lethbridge, 425; Maple Creek \$440. These recommended grants include the item of money expenses, which in some cases were unavoidably large. Calgary is the only field in the district that is independent of connexional assistance.

The following assessment was made for the (1) Supernatannation and (2) General Con. Fund:

Calgary.	\$ 83	\$13
Gleichen	3	3
Pine Creek	10	5
High River	2	2
Banff	11	5
Red Deer	8	5
Edmonton	20	6
Macleod	25	7
Lethbridge	6	3
Medicine Hat	16	5
Maple Creek	14	3.50
	\$198	\$56.50.

Mr. W. H. Cushing was elected to represent the district in the Annual Conference Missionary Committee, which will meet it is likely in November in Winnipeg.
Upon motion, it was resolved that earnest effort be made to aid Wesley College, and that a collection be made in each appointment in the district.
Educational meetings will be arranged by the superintendents in their respective fields.
The following plan was adopted for missionary anniversaries, viz:—
Calgary Nov. 10 Rev. A. B. Hames.
Gleichen Nov. 10, Rev. A. B. Hames.
Pine creek Nov. 6th and 7th, Revs. A. B. Hames and F. Locke.
High river Nov. 3th and 5th, Revs. Hames and Hillyer.
Banff, Rev. John J. Leach, Ph. B.
Red Deer, local arrangements.
Edmonton, local arrangements.
Macleod Oct. 13th, Rev. J. Endicott.
Medicine Hat, Revs. Locke and Johnston.
Maple Creek, Rev. Chancellor Tuter.
Upon motion it was resolved that the annual meeting be held in the Methodist Church, Calgary.
The meeting was harmonious and earnest throughout, and after devotional exercises it was closed with the benediction.

AT IT COSTS TO MAKE BUTTER.

Authority on Dairy Matters Taken from the Cost of Butter For Food.

Who frequently up springs some man proceeds to tell us what it costs to make butter. No sooner has he subsided than some other fellow declares that the first is all wrong. As we view it, says the Dairyman, the cost of producing butter must depend on so many conditions that the experience of no one man can be taken as a guide for others. There are, however, two primary principles which govern everywhere.

The cost of butter per cow will always be affected by the amount the cow yields. For instance, if a cow yields 100 pounds a year, the cost per pound in some respects is more than double of that obtained from a cow that yields 800 pounds. The item of labor, milking, and so a considerable extent also, is nearly, if not quite, the same in the first cow as with the second.

In herds of cows the cost of butter per pound is affected by the size of the herd. Ten cows producing 200 pounds each, in a season, will require the same machinery and room that will a herd of twenty having the same relative production per cow.

Two thousand pounds of butter will cost more per pound, in many particulars, than 4,000 pounds. The proportion cost will also be varied greatly by the location and hardness of stable and by house. A Mr. Hopkins, of Buffalo, N. Y., with a herd of fifteen very fine cows that produced an average of 800 pounds per cow, says in The Country Gentleman that his butter cost 11 1/2 cents a pound to produce that which sells for an average price of thirty cents.

Another dairyman says his figures are wrong, and that it costs him forty cents a pound the year round. We would not wonder if it did. Take some of these foolish dairymen who really produce a cow that will yield 125 pounds to that yields 800 pounds, and we doubt they are paying a cost of thirty to forty cents for all they get. It takes \$30 to \$40 to keep even such low producing cows a year, and a return of only a hundred pounds of butter makes the article cost dear. In all these figures it takes brains to figure where the profit lies. Not one farmer in one hundred can tell today what his butter costs, the cost per gallon of his milk produced. As business men this should not be.

The Use of Stanchions.

After thirty years' use of stanchions John Gould declares that they must be to the wood pile. He tells in Rural Yorker that his new stable is furnished with double stalls and neck chain that allow great freedom of motion, by the shoulder partitions they are ordered no chance to use their horns on their neighbors. They lie down and rise on their sides or rest their muzzles on manger boards and dream of fall crops of coming silage. When he sees a so comfortable he reproaches himself for hanging on to stanchions so many years because they were handy. The argument for the stanchion was all on one side. The comfort of the cow and wishes as to freedom of movement are not considered.

Here and There.

It is claimed that sheep take readily to sweet ensilage, and do well on it. Roads and road making is now a subject of general interest and discussion among farming communities.

The farmer reports that apple pomace is as disastrous as a fertilizer, but was "quicker" on Canada thistles and other weeds. The pomace was that by the old style of pressing, and mixed with acid.

Testing the vitality of oats designed to be seed ought to become a common practice.

It is proposed to plant a new orchard in spring American Agriculture.

Henry Stewart, who is recognized as one of our first authorities on sheep, says that our American mountain sheep are the same kind of mutton, and when bred by South Downs their meat is as good as that of the English. A North Carolina mountain half-bred South Down pasturing in the hills and fattened upon the chestnuts acorns in the fall is equal in every respect to the best English mutton sheep. No American shepherd need go anywhere for a desirable location or better place for mutton. But, as Rural New Yorker very timely remarks, one can have everything in one sheep, and a wool is wanted mutton must be bred, and vice versa, for the best mutton does not carry the most profitable fleece. If we follow the English lead, pasture the flocks upon rich clover, feed in the fall upon turnips, finish with cotton seed oil meal, we have mutton equal in every respect to that of England.

More labor is involved—a fatal objection in too many cases. When the sheep comes in wet and dirty remove the dirt of it with a scraper, and either dip the legs in hay bands or put on a new set of flannel bandages. While the attendant is looking after the harness dally, the horse is rapidly drying, the remainder of the dirt can be brushed out with the dandy brush. It is no trouble than to throw two or three buckets of water at the animal or to drive him to the pond, but it is left warm and instead of wet and uncomfortable, disease is prevented, which is a great benefit better than curing it.

TENDERS OF REPAIRS TO TOWN HALL.

THE WEEK'S LOCAL NEWS

Wednesday.

The ball given by the N. W. M. P. and Calgary Lawn Tennis Clubs in the Opera House last night was a complete success. Most of the invitations were accepted. The band of "E" division, N. W. M. P., Calgary, furnished the chords which moved the "light fantastic."

The Presbytery of Calgary met in Knox Church yesterday morning at 10 o'clock in regular half-yearly meeting. Among other members present are Rev. James Herald of Medicine Hat and Rev. A. J. McLeod of Banff. Rev. Mr. Herdman was elected Moderator for the ensuing year. A number of satisfactory reports were received and considerable business in connection with home mission work transacted. It is expected that the Presbytery will finish their deliberations to-day.

Mayor Marsh has shown us a fine lot of corn on the ear sent up to him from the garden at the establishment of T. C. Power & Co., Maple creek. The corn is speckled in red, blue, green and white and is very plump and well filled grains and medium sized ears. It is said to be a variety which has been cultivated by the Indians in some parts of the States for 100 years. Mr. Marsh gets this corn sent to him every year for green corn. The lot we saw to-day is past being injured by frost.

Thursday.

Sir Henry Locke accompanied by a party of 10 ladies and gentlemen arrived in the private C. P. R. car "Pekin" by No 1 express this morning. Sir Henry and the gentlemen of the party drove out this morning to visit Mr. Gordon Cumming, nephew of Sir Gordon Cumming, at the Quern Ranch. They returned to town about 2 p. m. The ladies

took a walk through town and did some shopping in the afternoon. At 3:15 p. m. their car was attached to a freight train going west to make the entrance of the mountains in daylight. A Herald reporter took a "poke in" their car and found Sir Henry very pleasant and courteous.

The Presbytery of Calgary closed its session yesterday afternoon at 6 o'clock. Among the matters discussed in the course of yesterday's sittings were supply for fields for winter, inauguration of a system for complete registration of statistics and settlement of some outstanding difficulties connected with the progress of mission work. The amount expected from the Presbytery for the chief mission funds of the church reaching about \$900, was allotted to the several congregations within the bounds on a definite basis of contribution. An interesting conference was held on the temperance question, and another discussion on denominationalism was arranged for. A petition from the congregation of Medicine Hat for moderation in a call was assented to and the sympathy of the court conveyed to several members absent through sickness. The next regular meeting is fixed for Knox Church, Calgary, on the first Monday of March of next year.

Friday.

Mr. W. J. Johnson, of Ottawa, is registered at the Hotel Hotel.

Miss Short, of Deloraine, Man., is sojourning at the Royal Hotel.

Mr. G. C. Marsh, of Calgary, at present in the east, has been giving some glowing, but truthful reports of this town and country in the Hamilton, Ont., Evening Herald.

Hayter Reed, Indian Commissioner for the Territories, Mrs. Reed and her sister Miss Wilson, of Belleville, Ont., are registered at the Royal Hotel. Today Mr. Reed drove out to the Sarcee Reserve.

Mr. H. A. Galbraith, general agent for the J. & J. Taylor safe works, of Toronto, gave us a call last evening. He is on his return from a 7 weeks' business trip to the Coast. Mr. Galbraith went east by No. 2 express this morning.

A new medical firm has been formed by Dr. N. J. Lindsay and Dr. H. George late of London Eng., who has had several years practice in that city, organizing a partnership. They will practice their profession in Calgary and will be found in Dr. Lindsay's old office over I. S. Freeze's store on Stephen Avenue. See professional card.

W. Gordon Cumming, proprietor of the Quorn Ranch, is registered at the Royal Hotel. This gentleman evidently possesses a large amount of the spirit of adventure of his uncle Sir Gordon Cumming, who is probably the most celebrated African lion hunter of the present day. Mr. Cumming, now of Calgary, has also had no small experience with his uncle in hunting the king of beasts in jungles and passes of Africa. Owning large herds of wild west cattle in Canada is a together too tame an affair for Mr. Cumming for an all year round business and he is now preparing for a grizzly bear hunt in the Yellow Head Pass of the Rocky Mountains, west of the Hudson's Bay Co's post called Jasper House. Mr. Cumming will find the grizzly and cinnamon bears of the Canadian Rocky Mountains no mean game. Some of them exceed in size any African lions we have ever seen.

Saturday.

The Empire Restaurant has taken the lead and ushered in the oyster season.

D. R. Wilkie General Manager of the Imperial Bank of Canada and his two sons, are in town, registered at the Royal.

Mr. Wm. Stephen, of Montreal, brother of Sir George, arrived from the Coast by No. 2 express this morning and is a guest at the Royal Hotel.

No. 1 express from the east was five hours and a half late this morning. It was a very heavy train with the usual double quantity of mail, baggage and express matter, which comes in on Saturday mornings.

A gang of men are at work this morning building the side walk on Osler street, south of the C.P.R. Part at least of the bad places on the street leading to the race track, will be covered by a good 7 foot walk, before the races on Monday and Tuesday.

Several merchants in Vancouver are warning the people that cold weather is approaching and they should buy their heating stoves at once. There is no need of heating stoves in Calgary yet, it is only on odd days that heaters are needed here before December.

Mr. Perry C. P. R. road master with a large gang of men have been engaged for several days raising the track of the main

The first number of "Truth", which has been moved from Donald, B. C., to Westminister, issued from its new quarters in the "Guardian" office, on Thursday, the 5th Sept. The Herald took occasion to refer to Truth and its editor when the deal was made a week or so ago. The new paper comes out in six wide columns, equal to eight columns of the ordinary width, and is full of news. Thanks Mr. Editor for the kindly reference to the Herald.

Tuesday.

Hon. Edgar Dewdney was banquetted last night at New Westminster.

The date of the races is changed to Friday and Saturday, the 13th and 14th. J. Gordon Brown, of Toronto brother of the late Hon. Geo. Brown, late editor of the Globe and present Registrar of the Surrogate Court, is in town.

We are sorry to learn that Mr. Christie, manager of LeJeune, Smith & Co.'s Bank, who sprained his knee a short time ago, is worse so the doctor has ordered him to keep in bed for some time.

We see Chas. Howson and J. A. MacCaul of Regina, are in town; also D. W. Davis, M. P.; Messrs. Cottingham, Stedman, Jordan and Geo. Wentworth, from Macleod, all in for the races.

Yesterday, in spite of the snow and the wind, was a festive occasion in many quarters. Wine and whiskey would not be supposed to go well together, but when they meet it is a great day for Ireland.

The fireman are negotiating with the Oddfellows for the purchase of the band instruments owned by the latter. It is a pity something cannot be done to place the only local band in town on its feet again.

As will be seen from the advertisement in another column, the Calgary races have been postponed to to-morrow and next day on account of the weather. The number of visitors in town testifies to the interest taken in the meeting.

The good news has been received from L. Hamilton, land commissioner of the C. P. R., by Mr. Fitzgerald, their agent in Calgary, that the Calgary grain exhibit has eclipsed everything sent forward by any part of the Territories or Manitoba this season. Mr. Hamilton shows that there is no buncome about it, as he has requested Mr. Fitzgerald to procure samples at Calgary for the Canadian Pacific Railway Company to send to England as a proof of what the Northwest can do in raising grain.

A number of townspeople visited the track Monday afternoon to see the horses exercised. Bob White with Proctor behind him, was speeded once or twice and was much admired. It is not supposed he can touch Silver Tail, but apart from that he is a very speedy and pretty trotter. Charlotte J. was also out and under his dusky jockey, the rival of Grey Eagle made his mile before an admiring crowd. Silver Tail jogged along with Swift holding the ribbons. Wild Rose was put over a couple of hurdles in good style. Armenius was also out.

The local sports who were wishing for rain on Sunday evening to put the track in good trim, had more than they bargained for. Rain commenced about half-past five Sunday afternoon, the wind veering to the north. About 1 o'clock Monday morning it turned to snow, the wind blowing strongly from the north and yesterday the "beautiful" lay three inches deep in the level. It snowed lightly with very little intermission all Monday, and this morning it lay six inches on the level. Of course the races had to be postponed. Today has been bright with the snow rapidly disappearing, but it is a question whether the track can be very "fit" even tomorrow.

Mr. VanKoughnet, the Deputy of the Superintendent of Indian Affairs, has just visited the nation's wards in British Columbia. He says of the Western Indians that they are slightly higher on the ladder of civilization than ours in the East, and for two reasons. The first is that they are entirely self-dependent. "Our Government grants them no annuities, and all the money they obtain is the outcome of their profitable labors. With us this is not the case. The granting of annuities, in accordance with old treaties, has fostered a spirit of semi-dependence and laziness among the Eastern tribes which is the reverse of satisfactory. The second reason is that Indians in British Columbia, generally speaking, mingle in their daily pursuits more among white men than they do in the East."

The collection of race horses at present in Calgary is without exception the finest yet gathered together at one time in the Northwest. Charlotte J., Sir Henry and Shungaroo, of Prince Albert; Mabel S., of Fort Qu'Appelle; Thankful, of Minneapolis; Jimmy, of Winnipeg; Bob White, Wild Rose and Audience of Fort Macleod; Grey Eagle, of High River; Silver Tail, record 2:31, and Arminius, Harkaway and Silver Cross of Calgary are horses that would do at any race meeting, and will go far towards stimulating the zeal of our local horsemen for the possession of thoroughbred stock. The new race track at the Agricultural Grounds is acknowledged to be a slow one, as is perhaps unavoidable for a perfectly new track, but although there may be no record-breaking, there will at all events be an exhibition of racing which is worth going a long way to see.
